Achievements

Exhibition at GameXP

In 2019, through a public notice, I had the opportunity to showcase a game of my own at the indie festival of the GameXP fair.

Game Jam Winner

With the game "Gatotive," I won the award for Best Game, working as a programmer and game designer.

Hello, my name is Thiago, and I am 25 years old. I have dedicated about six of those years to my passion for game development. Throughout this journey, I have accumulated knowledge that I primarily apply to programming, but my enthusiasm for the field has also led me to delve into Game Design, QA, management, and UX.

Experience

Developer / Producer

Cosmic Canvas - 2025
